GASTEIG HP8

Welcome to the Gasteig HP8!

To ensure that all visitors can enjoy their stay, we ask you to observe the following regulations.

GASTEIG HP8 SITE REGULATIONS

I. General

The buildings and outdoor area of the Gasteig HP8 are private property. These Site Regulations apply on the entire premises, both indoors and outdoors, of the Gasteig HP8 except in those cases where tenants of the buildings are entitled to set their own rules. The Site Regulations may also be enforced by staff authorised by Gasteig München GmbH.

II. Regulations for your stay in the buildings and on the grounds of the Gasteig HP8

1. Please conduct yourself in such a way as not to impair or endanger other visitors (e.g. making loud noise, littering, unpleasant odours or aggressive behaviour).

2. Unauthorised persons are not permitted in the areas specifically reserved for employees of the institutes or resident companies and their visitors.

3. Emergency escape routes must be kept clear. The marked escape routes must be used in case of danger. The misuse of safety equipment (e.g. emergency call buttons, emergency exit unlocking devices, etc.) is strictly forbidden.

4. For safety reasons (keeping escape routes clear) and out of consideration for all visitors, larger bags are not permitted in the concert halls. In Hall E, there are storage lockers (free of charge) and staffed cloakrooms (subject to a charge). You are welcome to hand in your coats and jackets there. Please note that you can hand in a maximum of two items of luggage.

5. The selling of goods and tickets, playing of music, distribution of printed matter or carrying out of advertising campaigns and collections in the buildings or on the grounds is not permitted without the express permission of Gasteig München GmbH.

6. All indoor and outdoor areas of the Gasteig HP8 must be kept clean. The sanitary areas must not be used for other purposes (e.g. for personal hygiene or washing and drying clothes).

7. Structural facilities, furniture and other equipment must not be written on, painted, have stickers applied to them or be moved.

8. Smoking (including e-cigarettes) is not permitted in the Gasteig HP8 buildings. Please use the designated outdoor smoking areas. The use of drugs, including cannabis, is prohibited on the entire site.

9. Seating in the buildings and in the outdoor area is provided for temporary use by visitors. Lying and sleeping on the floor in buildings and outdoor areas are not permitted.

10. Motorised vehicles of any kind are permitted on the site only with the permission of Gasteig München GmbH. Exceptions apply to severely disabled persons as well as suppliers and customers of resident companies. Cycling, inline skating, skateboarding, scooters, etc. are permitted on the premises, provided that other visitors are not endangered by their use. Bicycles must be parked in the racks provided.

11. With the exception of guide dogs, animals are not permitted in the buildings. In the outdoor areas, dogs must be kept on a lead.

12. Bags and pushchairs must not be left unattended.

13. The use of power outlets for private use is permitted in the area of Hall E. Make sure that other people are not hindered by cables.

14. Photography, filming and sound recordings without prior permission are prohibited during events, as are telephone calls.

III. Violations of site regulations

Significant violations of the Site Regulations will result in a warning and, in severe cases, an immediate ban from the premises. This includes bringing and consuming drugs, bringing weapons and other dangerous objects, the threat and use of physical violence, wilful damage to property, theft, rampaging, insulting or abusive behaviour, soiling the building and outdoor facilities, and begging.

The instructions of the Gasteig München GmbH staff and of the security service must be followed. In the event of non-compliance, offenders may be banned from the premises. Failure to leave the premises when asked to do so by site staff may result in prosecution for trespassing.
