Gasteig
Kultur für München

Gasteig München GmbH

Culture for all

A space for culture, education and social interaction

We are the operators of the Gasteig – the vibrant, inclusive centre for cultural exchange, education and artistic development in Bavaria's state capital of Munich. We provide an inviting space at all of our sites that fosters culture and education for everyone in a so many different ways.

We stand for diversity, inclusion and openness. We foster an environment that offers accessible creative spaces and creates a sense of community.

Under the Gasteig umbrella, we bring together the cultural and educational programmes offered by the city's institutions and all our partners to create synergies. This includes the development of our own formats and programmes, which strengthen the Gasteig's identity and enhance the city's cultural life.

We are committed to providing a superior service to our partners, thereby contributing to their success.

We value fairness, responsibility and integrity. We use our resources sustainably and economically.

We foster an appealing, supportive working environment for our staff. We value and support everyone, recognising their skills and talents, and enable them to contribute these to the company to the best of their ability.
